

```
anonymous_namespace  
{LoopFusion::cpp}::fuseLoops
```

A diagram illustrating a function call. On the left, a white box with a black border contains the caller code: `anonymous_namespace {LoopFusion::cpp}::fuseLoops`. A blue arrow points from the right side of this box to the right side of a gray box on the right. The gray box contains the callee code: `anonymous_namespace {LoopFusion::cpp}::getLoopBodyEntry`.

```
anonymous_namespace  
{LoopFusion::cpp}::getLoop  
BodyEntry
```
